

ENGINEERED SYSTEMS LINE CARD

www.mesaequipment.com

ATLAS COPCO

- Reciprocating/Piston Air Compressors
- Rotary Screw Air Compressors (3HP – 400HP)
- Oil-Free Rotary Air Compressors (1.5HP – 400HP)
- Low Pressure Rotary Screw Air Compressors (<50 PSIG)
- High Pressure Rotary Screw Air Compressors (290 PSIG)
- Variable Speed Drive Air Compressors (7.5HP – 400HP)
- Portable Compressors, Light Towers & Generators
- Oil-Free Multistage Centrifugal Pressure & Vacuum Pumps
- Rotary Screw, Vane and Liquid Ring Vacuum Pumps & Systems
- Refrigerated & Twin Tower Desiccant Compressed Air Dryers
- Compressed Air Filters & Accessories
- Nitrogen & Oxygen Generators
- AirNET Aluminum Piping System
- Compressor Automation
- Genuine Atlas Copco Parts & Lubricants

BEKO TECHNOLOGIES

- Refrigerated Compressed Air Dryers
- Desiccant Compressed Air Dryers
- Membrane Compressed Air Dryers
- Condensate Drains & Separators
- Compressed Air Filtration
- Hydrocarbon Removal
- Compressed Air Instrumentation (Dew Point Monitoring, Flow Monitoring, Leak Detection, Audit Packages, Hydrocarbon Monitoring)

BUSCH VACUUM PUMPS & SYSTEMS

- R5 Rotary Vane Vacuum Pumps
- Seco Dry Rotary Vane Vacuum Pumps
- Mink Dry Claw Vacuum Pumps & Compressors
- Merlin Dry Claw Combination Pumps
- Cobra Dry Rotary Screw Vacuum Pumps
- Dolphin Liquid Ring Vacuum Pumps
- Vacuum Systems
- Genuine Busch Parts & Lubricants

COILHOSE PNEUMATICS

- Filters, Regulators & Lubricators
- Coiled Hoses, Straight Hoses, Lead-In Hoses & Whips
- Couplers & Connectors
- Plastic Tubing (Polyurethane, Bonded, Polyurethane, Polyethylene, Nylon, D.O.T. Tubing, Polyvinyl (PVC) Tubing, Weld Splatter Tubing, Tube Channels & Cutters)
- Blow Guns, Air Chucks, Lubricants, Cleaners & Oils

DEKKER VACUUM TECHNOLOGIES

- Titan Liquid Ring Vacuum Pumps
- Maxima Large Capacity Liquid Ring Vacuum Pumps
- DuraVane Rotary Vane Vacuum Pumps
- Vacuum Systems
- Genuine Dekker Parts & Lubricants

NANO PURIFICATION SOLUTIONS

- Desiccant & Refrigerated Air Dryers
- Compressed Air & Gas Filters
- Process Filters
- Process Chillers
- Nitrogen Generators
- Breathing Air
- Oil Vapor Removal
- Dew Point Monitors

PARKER FINITE AIRTEK FILTRATION DIVISION

- PARKER AIRTEK
- PARKER DOMNICK HUNTER
- PARKER ZANDER
- Compressed Air Treatment (Refrigerated Compressed Air Dryers, Desiccant Compressed Air Dryers, Compressed Air Filters, Compressed Air Breathing Air Purifiers)
- Industrial Process Water Chillers (Process Water Chillers, Medical Chillers, Non-Ferrous Laser Chillers, Thermal Spray Process Water Chillers)
- CO2 Purification

QUINCY COMPRESSOR

- Reciprocating/Piston Air Compressors (3HP – 30HP)
- High Pressure Reciprocating/Piston Air Compressors (500 PSIG)
- Climate Control Reciprocating/Piston Air Compressors
- Natural Gas Compressors (2HP – 600HP)
- Rotary Screw Air Compressors (5HP – 350HP)
- Refrigerated & Twin Tower Desiccant Compressed Air Dryers
- Compressed Air Filters & Accessories
- Genuine Quincy Parts & Lubricants

REEL CRAFT HOSE REELS

- Air Hose Reels
- Oil Hose Reels
- Grease Hose Reels
- Hydraulic Hose Reels
- Fuel Hose Reels
- Welding Reels
- Electric Reels

SAMUEL PRESSURE VESSEL GROUP

- Vertical & Horizontal ASME Compressed Air Receivers
- Custom ASME Compressed Air Receivers
- Vessels from 6" to 192" Diameter
- Carbon Steel, Stainless Steel, and Higher Alloy Materials
- Pressure from Full Vacuum to 3,000+ PSIG

SPX HANKISON

- Refrigerated Compressed Air Dryers (Non-Cycling, Energy Savings, High Inlet Temperature, High Pressure & High Capacity)
- Desiccant Compressed Air Dryers (Single Tower, Heatless, Blower Purge, Heated Blower Purge & Heat of Compression)
- Compressed Air Filtration Technologies
- Condensate Management
- Membrane Compressed Air Dryers
- Breathing Air Purifiers
- Rental Compressed Air Dryers

SPX PNEUMATIC PRODUCTS (PPC)

- Desiccant Compressed Air Dryers (Heatless, Internally Heated, Externally Heated, Blower Purge & Heated Blower Purge)
- Compressed Air Filter Absorbers
- Specialty Dehydration Technologies
- Custom Desiccant Compressed Air Dryers
- Condensate Management
- Dri Breathers
- Flame Arresters

SUMMIT INDUSTRIAL PRODUCTS

- Air Compressor Lubricants
- Gas Compressor Lubricants
- Food Grade Lubricants, Oils & Greases
- Hydraulic Oils
- Refrigeration Lubricants
- Oven Conveyor Lubricants
- Degreaser & Descaler Chemicals
- Condensate Management Equipment

TRAVAINI VACUUM PUMPS & SYSTEMS

- Vacuum Pumps
- Compressors
- Centrifugal Pumps
- Packages & Systems
- Boosters & Blowers
- Genuine Travaini Parts & Lubricants

VALLEY INSTRUMENTS

- General Service Pressure & Vacuum Gauges
- Liquid Filled Stainless Steel Pressure & Vacuum Gauges
- Process & Ammonia Gauges
- Bi-Metal Thermometers

PREVENTIVE MAINTENANCE

We service all types of compressed air equipment, regardless of manufacturer.

Increased production, diminished downtime, reduced major and repetitive repairs is our goal for our customers. We can help achieve these through our preventive maintenance plans:

- Inspection Only
- Parts Only
- Monthly, Quarterly, Semi-Annual & Annual PM Services

We can tailor your preventive maintenance plan to meet your needs. We include a professional system recommendation and a detailed record of the work performed. Our technicians are highly trained and equipped with the latest technology to ensure proper operation of your equipment. Contact us to discuss your need for preventive maintenance services with one of our product support specialists!

SYSTEM AUDITS

Mesa Equipment has the most experienced audit staff in our area. It is our goal to provide our customers with a comprehensive analysis of each compressed air or vacuum system. We will scientifically show you why your compressed air system is not meeting production demand or reduction in electrical demand. The results of our auditing services routinely lead to major increases in productivity and profitability, while improving the reliability and maintainability of your compressed air system. Our auditing service is not another quick fix approach to your everyday compressed air problems. It is a serious investment. Our analysis process and resulting recommendations are scientifically proven to optimize your compressed air or vacuum system and maximizing productivity. Proving that your compressed air or vacuum system is inefficient requires simple math. Showing you where and how to improve the efficiency of your system requires the science of compressed air. Contact us to schedule an air audit today and apply the sciences of compressed air to your future.

Learn more about Mesa's line of Air Compressors, Vacuum Pump Systems and Air Treatment Systems online at: www.mesaequipment.com

MESA ALBUQUERQUE NM BRANCH
7100 2nd Street NW
Albuquerque, NM 87107 USA
